

# PRODUCT DATA SHEET

---

## Product Name

DIAO - FASCLEAN LAUNDRY LIQUID (REMOVE BACTERIA) 10L

## Product Description

Fasclean Laundry Liquid (Remove Bacteria) is a high-performance detergent designed to effectively remove bacteria and mites from fabrics. Based on third-party experimental data using Staphylococcus aureus and house dust mites, it provides reliable hygienic cleaning while maintaining fabric care.

## Key Features

- Effectively removes bacteria and mites
- Highly active formula penetrates deep into fibers
- Efficiently removes stains and dirt
- Moderate foam for easy rinsing
- Saves water and energy
- Leaves a fresh lavender fragrance after washing
- Phosphate-free formulation

## Main Ingredients

- Active Cleaning Ingredients
- Builder
- Lavender Fragrance
- PCMX

## Application

Suitable for washing cotton, linen, silk, wool, down, chemical fiber, and blended fabrics. Especially suitable for sportswear, underwear, and socks.

## Laundry Tips

- Machine washing: Pour the liquid into the machine and start washing immediately
- Hand washing: Dissolve the liquid in water before adding clothes
- For heavy dirt (collars, cuffs), apply directly before washing

## Technical Information

- Form: Liquid detergent
- Volume: 10L
- Fragrance: Lavender

## Storage

- Store in a cool, dry place
- Keep out of reach of children

## Safety Information

- Follow instructions when washing
- Wash separately for color-sensitive fabrics
- For silk and wool, test on hidden area first
- In case of eye or mouth contact, rinse with water and seek medical advice
- This product does not replace disinfectant

## Environmental Information

Phosphate-free
