

# FLAROSOL DF

## Chemical composition

Combination of selected detergents and surface active substances - free of chlorinated solvents.

### Application

FLAROSOL DF is a special initial brushing and spraying detergent for the use as pre-spotting agent in perchloroethylene.

FLAROSOL DF has good dirt dissolving capacity against persistent general soilings and a very good soil suspending property. It does not impair the dyeing and can be used for white and colored textiles (hem test). FLAROSOL DF has no negative influence on the filter performance or the distillation (low foaming) and it is not corrosive to metals.

### Properties

Appearance:	yellow liquid
Density (20°C):	approx. 1,0 g/cm <sup>3</sup>
pH-value (10%):	approx. 7
Charge:	nonionic

### Dosing

After stain removal; to cover the areas which are treated with UNISOL and heavy soiled parts of the fabric.

### Use

#### initial spraying:

balloon cloth, wardrobe, wool, silk, other sensitive fibres: FLAROSOL DF can be used to spray on directly.

Performing of the hem test is mandatory!

#### initial brushing:

In case of persistent soilings, for example on: collars, revers, wristbands, trousers guards, and balloon clothing it is recommended to use FLAROSOL DF directly for initial brushing. Hem test is mandatory.

FLAROSOL DF can be diluted with up to two parts of water.

### Use-Level

The optimized dosing level has to be determined by test or by experience.

**Storage** 12 months in originally sealed packaging at room temperature (10 – 25°C). Lower temperatures may cause a phase separation or turbidity. Freezing has no negative impact on the product quality. Warming up to room temperature and careful stirring will return the product to its original appearance and consistency.

### Packaging

- ECO - box (22L)
- PE can (25L)
- PE drum with screw up (220L „L-ring“)
- Container (IBC 1000L)
