

# WOLPONAL COMFORT

## Chemical composition

Combination of surface active substances with fragrance in water

### Application

WOLPONAL COMFORT is a silicon free, special softener and fibre protection agent with fragrance. It is especially for wet treatment.

It avoids size alteration during drying processes, the colours stay brilliant and the textiles odour becomes fresh.

WOLPONAL COMFORT effects a soft, full touch and supports the ironing process due to its anti-wrinkle properties.

### Properties

Appearance:	white emulsion
Density (20°C):	approx. 1.0 g/cm <sup>3</sup>
pH-value:	approx. 7
Charge:	cationic

### Dosage

After cleaning process in the machine in the last rinse bath.

### Use

The time of treatment should be not less than 5 minutes with a ratio of 1:4 - 1:15.

#### dosage:

cotton:

5 – 10 ml / kg of weight of goods

cotton mixture fibres:

5 - 15 ml / kg of weight of goods

### Use-Level

The optimized dosing level has to be determined by tests.

**Storage** 12 months in originally sealed packaging at room temperature (10 – 25°C). The product is sensitive to frost and heat. Avoid direct sun light. Prolonged storage may cause a phase separation. In that case we recommend to homogenise the product thoroughly by using a low speed stirrer. Continuous stirring and high shear rates have to be prevented.

### Packaging

- ECO - box (22L)
- PE can (25L)
- PE drum with screw up (220L „L-ring“)
- Container (IBC 1000L)
